100 Years of Family Electrical Tradition

Available Now through your Electrical Wholesaler

Another range extension from Trader, the Hippo Powerpoints and Switches are ready for use by the Australian Electrical Contractor.

Australia has tough climatic conditions and the Hippo is ready to tough it out in the sun or rain or in any environment where products need enduring protection from the elements.

The Hippo range is ready for:

**Carparks**

**Garden Areas**

**Exterior Walls**

**Verandahs & Patios**

**Swimming Pools**

... the list goes on and every electrical contractor needs the variety in this range.

The Hippo has the conventional look the market is familiar with and a look which is familiar with consumers.

## HPSW1G HPSW2G

- 20Amp 16AX 250V rated modular weatherproof switches
- Heavy duty switch mechanism with additional mech securing screws
- Tough UV stabilized polycarbonate
- IP66 ideal for prevention against water or harmful objects that may compromise conventional light switches. Perfect for use in exterior applications, or damp/dusty environments such as building exteriors, carports, gardens or workshops
- Styling matches the rest of the TRADER HIPPO family of products
- Back mounting boxes that contain 20mm and 25mm plain entries

## HPPP1G, HPPP2G, HPPP151G and HPPPSW2G

- 10Amp 250V rated modular weatherproof sockets
- Tough UV stabilized polycarbonate
- IP54 ideal for prevention against water splashes or harmful objects that may compromise conventional socket outlets. Perfect for use in exterior applications, or damp/dusty environments such as building exteriors, carports, gardens or workshops
- Styling matches the rest of the TRADER HIPPO family of products
- Single gang back mounting boxes that contain 20mm and 25mm plain entries
- Double gang boxes containing 25mm plain and threaded entries
- For the twin socket with extra switch HPPPSW2G, the switch has a rating of 10AX
