DESCRIPTION Double Insulated Mounting Block - White

BOX QUANTITY 5

OUTER QUANTITY 50

FEATURES

44mm deep mounting block with room for all domestic accessories.

Double insulated – corner mounting points are isolated from interior of box.

2 x 20mm conduit entry points (one end and one side) and 2 x 25mm conduit entry points (one end and one side) with tunnel profile to accept conduit for neat finish.

A complete set of bungs is provided to cap each unused conduit entry point.

1 x 20mm and 1 x 25mm rear entry drill guides.

Metal threads for accessory fixing screws.

APPLICATIONS

Mounting standard domestic accessories where double insulation is required or preferred.

Ideal for tidy surface mount wiring with conduit due to the tunnel profile feature.
