

RCBOs

RCBO s are compact combination devices which provide MCB overcurrent protection & earth leakage protection. The Type A and /or Type AC devices, with line neutral switched, are available with various current ratings ranging from 6A - 45A.

RCBOs Commercial	4

Description

Compact combination devices which provide overcurrent protection & earth leakage protection. The Type A and Type AC devices, some with line neutral switched, are available in various current ratings from 6A - 40A. Specifically designed for DIN rail enclosures - However ADC3xxT can be used in invicta panelboards.

Features

- IEC 61009.1 & AS/NZS 61009.1
- Earth fault indication window (except for 1 mod RCBOs)
- ACA9xxT is Type 1 according to AS/NZS 3190
- Trip free mechanisms

1 mod connection capacity

- 10mm² flexible
- 16mm² rigid

2 mod & 4 mod connection capacity

- 16mm² flexible
- 25mm² rigid

Accessories

- Toggle locking device - MZN175

Accessories for 4 mod devices only

- MZ201, MZ202, MZ203, MZ204, MZ206, MZN175

Specifically designed for DIN rail enclosures

Description

Compact combination devices which provide MCB overcurrent protection & earth leakage protection. The Type A devices, some with line neutral switched, are available with various current ratings ranging from 6A - 45A. Specifically designed for DIN rail enclosures - Except the 1P RCBOs which fit in perfoma panelboards.

Features

- IEC 61009.1 & AS/NZS 61009.1
- Earth fault indication window (except for 1 mod RCBOs)
- ACA5xxT is Type 1 according to AS/NZS 3190
- ACA1xxT and AC1xxB are general type, not for patient areas according to AS/NZS 3190

Connection capacity

- 16mm² flexible
- 25mm² rigid

Accessories

Toggle locking device - MZN175

Accessories - 2 mod and 4 mod devices only

MZ201, MZ202, MZ203, MZ204, MZ206
