

Title: PVC Duct Tape

Part Number: WATPVCDT (colour - grey).

Description: Wattmaster PVC Duct Tape is a heavy duty, aggressively self-adhesive tape for general applications. Wattmaster PVC Duct Tape is made from high quality plasticized PVC with excellent electrical and mechanical properties.

Details: The Wattmaster range of Electrical Insulation Tape is manufactured to Wattmasters high quality standards using a special plasticized Polyvinyl Chloride polymer that has excellent stretch characteristics and very high Electrical Resistivity. Coated with an aggressive non-thermosetting rubberized adhesive with excellent aging properties, the tape is designed to be highly conformable and chemical/moisture resistant. Testing conducted to ASTM D1000

Technical Specifications*:

Property		Nominal
Physical	Tensile strength (Kgf/25mm)	➤ 5
	Elongation (%)	➤ 100%
	Thickness (mm)	0.13
	Width (mm)	48
	Length (m)	30
	Adhesion Kgf/25mm	➤ 0.35
Temperature	Max operating temp (°C)	80
	Min operating temp (°C)	0
	Shelf life (23C/65%RH)	12 months

Applications: The Wattmaster range of PVC Electrical Insulation Tape is a premium quality multi-purpose insulation tape designed for Australia's harsh environment and manufactured under an ISO9001 Quality Management System.

With excellent adhesion to wood, plastics, cardboard, metal and many other surfaces Wattmaster PVC Duct Tape is suitable for a myriad of applications.

It can also be used to repair the insulation on wires or to bundle them together, to protect wires or small parts from minor damage, and to create cable entry seals, offering environmental sealing protection.
