

RG6 'F' Type Compression Connector (50 Pack) 08MM-EX6XLG

For the Best

The 08MM-EX6XLG is a professional grade PPC Broadband extended body 'F' type compression connector. The EX6XLG is suited for use with RG6 dual, tri and quadshield cables. Perfect for use in both CATV and satellite networks with an operating frequency range of 0-3000MHz. The EX6XLG features integrated gaskets and O-rings in its design to create that perfect seal to your cable to eliminate the chance of any unwanted ingress.

Features and Benefits

- » PPC Broadband RG6 'F' type compression connector for use in CATV and satellite installations
- » Used with Matchmaster compression tools (08MM-CT07 & 08MM-CT01S)
- » High-quality nickel-plated finish for long-life corrosion resistance
- » Suitable for use to 3000MHz
- » Telstra approved
- » Cable Retention 45 lbs (20.41 kg) minimum
