Colour range:	Fluorescent orange
Suitable for burial:	Yes

Vallen Mains Marker Non-detectable Underground Warning Tapes are coloured polyethylene tapes printed with a warning message to identify underground pipes & cables to Australian & New Zealand Standards. Mains Marker tape should be laid over underground services halfway between the service & the surface in the trench so that a visual warning is given before any damage to the services caused during an excavation.

### PRODUCT BENEFITS:

- Marking:- "Warning - Electric Cable Below"
- Warning message is printed in black
- Comes in eye-catching large letters
- Manufactured from Low density polyethylene
- Lead free pigments with virgin grade film
- Soil tolerance from pH 2.5 to pH 11.0 inclusive
- Manufactured in accordance with AS/NZS2648.1 1995 and AS/NZS 4275 Part O 1995
- Available in 100 & 500 Metre rolls

### APPLICATIONS

- Can be laid on top of electrical cables buried direct
- Electrical conduit
- Any trenching containing electrical products
- Should act as early warning if digging is being performed within the laid area
